- Portable microphone and speakerphone

No need driver, plug and play, compact and portable design make it easy to carry.

- Clear sound quality, no noise and no harshness.

- Elegant business appearance.

- Low power consumption design.

Specifications

Application Capability	
Application Range	10-30 square meters
Number of Participants	Within 15 people
Microphone	
Pickup Distance	3m
Frequency Response Range	100Hz-7KHz
Directivity	Omnidirectional
Speakerphone	
Frequency Response Range	100Hz-22KHz
Volume	Max.80dBA
Audio	
Full-duplex Echo Cancellation	Support
Noise Reduction	Support
Gain Control	Support
Interface	
Interface	1*Micro USB Data Communication
	1*3.5mm AUDIO-IN
Environmental Requirements	
Humidity	20~85%(no condensation)
Operating Temperature	0℃~40℃
Storage Temperature	-10-55℃
General Specifications	
Power Supply	5V 500mA
Dimensions	(W)180*(D)180*(H)35mm
